Index of Subjects

Acidosis
The effect of acidosis on the labelling of urinary ammonia during infusion of [amide-^{15}N]glutamine in human subjects. **72**, 83, 1994

Adolescence
Thiamin intake, erythrocyte transketolase (*EC* 2.2.1.1) activity and total erythrocyte thiamin in adolescents. **72**, 111, 1994
Estimates of food and macronutrient intake in a random sample of Northern Ireland adolescents. **72**, 343, 1994
Iron-deficiency anaemia and physical performance in adolescent girls from different ethnic backgrounds. **72**, 427, 1994

Ageing
Measuring the body composition of elderly subjects: a comparison of methods. **72**, 33, 1994

Albumin
The effects of experimental malnutrition on albumin metabolism and distribution in rabbits. **72**, 369, 1994

Alcoholic cirrhosis
One-month regular oral nutrition in alcoholic cirrhotic patients. Changes of nutritional status, hepatic function and serum lipid pattern. **72**, 937, 1994

Aldosterone
Faecal dry weight and potassium are related to faecal sodium and plasma aldosterone in rats chronically fed on varying amounts of sodium or potassium chlorides. **72**, 325, 1994

Amino acid kinetics
Kinetics of blood free and milk casein-amino acid labelling in the dairy goat at two stages of lactation. **72**, 211, 1994

Amino acids
The effect of heat on amino acids for growing pigs 1. A comparison of ileal and faecal digestibilities of amino acids in raw and heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 221, 1994
The effect of heat on amino acids for growing pigs 2. Utilization of ileal-digestible lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 243, 1994
The effect of heat on amino acids for growing pigs 3. The availability of lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale) determined using the slope–ratio assay. **72**, 257, 1994
Zinc changes in blood and urine during cyclic parenteral nutrition: relationships with amino acid metabolism. **72**, 763, 1994
Amino acid composition of the milk of some mammalian species changes with stage of lactation. **72**, 845, 1994
Identification of sulphur-rich proteins which resist rumen degradation and are hydrolysed rapidly by intestinal proteases. **72**, 855, 1994
The effect of condensed tannins in *Lotus corniculatus* on plasma metabolism of methionine, cystine and inorganic sulphate by sheep. **72**, 923, 1994

Ammonia
The effect of acidosis on the labelling of urinary ammonia during infusion of [amide-^{15}N]glutamine in human subjects. **72**, 83, 1994
Effect of ammonia treatment of wheat straw with or without supplementation of potato protein on intake, digestion and kinetics of comminution, rumen degradation and passage in steers. **72**, 147, 1994

Anaemia
Iron-deficiency anaemia and physical performance in adolescent girls from different ethnic backgrounds. **72**, 427, 1994

Appetite
The effect of subclinical intestinal nematode infection on the diet selection of growing sheep. **72**, 665, 1994

Ascorbic acid
Ascorbic acid deficiency in guinea pigs: contrasting effects of tissue ascorbic acid depletion and of associated inanition on status indices related to collagen and vitamin D. **72**, 745, 1994

Beef
Selenium from beef is highly bioavailable as assessed by liver glutathione peroxidase (*EC* 1.11.1.9) activity and tissue selenium. **72**, 873, 1994

Benin
The significance of socio-economic characteristics for adult seasonal body-weight fluctuations: a study in north-western Benin. **72**, 479, 1994

Bile acids
Dietary modifications of the biliary bile acid glycine:taurine ratio and activity of hepatic bile acid-CoA: amino acid *N*-acyltransferase (*EC* 2.3.1) in the rat. **72**, 93, 1994
The effects of dietary sugar-beet fibre and guar gum on lipid metabolism in Wistar rats. **72**, 385, 1994

Bioavailability
Absorption of zinc from lupin (*Lupinus angustifolius*)-based foods. **72**, 865, 1994
Selenium from beef is highly bioavailable as assessed by liver glutathione peroxidase (*EC* 1.11.1.9) activity and tissue selenium. **72**, 873, 1994
Pteroylglutamic (folic) acid in different feedstuffs: the pteroylglutamate content and an attempt to measure the bioavailability in pigs. **72**, 911, 1994

Body composition
Measuring the body composition of elderly subjects: a comparison of methods. **72**, 33, 1994

Body-weight
The significance of socio-economic characteristics for adult seasonal body-weight fluctuations: a study in north-western Benin. **72**, 479, 1994

Bone
Ascorbic acid deficiency in guinea pigs: contrasting effects of tissue ascorbic acid depletion and of

associated inanition on status indices related to collagen and vitamin D. **72**, 745, 1994

Calcium
Absorption of zinc from lupin (*Lupinus angustifolius*)-based foods. **72**, 865, 1994
True fractional calcium absorption in Chinese children measured with stable isotopes (^{42}Ca and ^{44}Ca). **72**, 883, 1994

Carbohydrate intake
Supplementation of a restricted maternal diet with protein or carbohydrate alone prevents a reduction in fetal muscle fibre number in the guinea-pig. **72**, 173, 1994

L-Carnitine
Effects of short- and long-term feeding of L-carnitine and congeners on the production of eicosanoids from rat peritoneal leucocytes. **72**, 785, 1994

β-Carotene dioxygenase (*EC* 1.13.11.21)
β-Carotene-15,15′-dioxygenase (*EC* 1.13.11.21) isolation reaction mechanism and an improved assay procedure. **72**, 397, 1994

Carrots
Fibre-mediated physiological effects of raw and processed carrots in humans. **72**, 579, 1994

Casein
Casein and soya-bean protein have different effects on whole body protein turnover at the same nitrogen balance. **72**, 69, 1994
Kinetics of blood free and milk casein-amino acid labelling in the dairy goat at two stages of lactation. **72**, 211, 1994

Childhood
Total energy expenditure and energy intake in the pre-school child: a comparison. **72**, 13, 1994

Chitin
Effect of chitin and chitosan on nutrient digestibility and plasma lipid concentrations in broiler chickens. **72**, 277, 1994

Cholesterol
Dietary modifications of the biliary bile acid glycine:taurine ratio and activity of hepatic bile acid-CoA: amino acid *N*-acyltransferase (*EC* 2.3.1) in the rat. **72**, 93, 1994
The effects of dietary sugar-beet fibre and guar gum on lipid metabolism in Wistar rats. **72**, 385, 1994

Chylomicrons
Fasting plasma triacylglycerol concentrations predict adverse changes in lipoprotein metabolism after a normal meal. **72**, 101, 1994

Collagen
Ascorbic acid deficiency in guinea pigs: contrasting effects of tissue ascorbic acid depletion and of associated inanition on status indices related to collagen and vitamin D. **72**, 745, 1994

Common carp
Lipid deposition in intestine as a possible cause of malabsorption of nutrients in zinc-deficient common carp (*Cyprinus carpio*). **72**, 753, 1994

Computer simulation
Simulation of the dynamics of protozoa in the rumen. **72**, 679, 1994

Crabeater seal
Digestibility of krill (*Euphausia superba* and *Thysanoessa* sp.) in minke whales (*Balaenoptera acutorostrata*) and crabeater seals (*Lobodon carcinophagus*). **72**, 713, 1994

Deuterium
Measurements of ^{2}H and ^{18}O in body water: analytical considerations and physiological implications. **72**, 3, 1994
Deuterium dilution as a method for determining total body water: effect of test protocol and sampling time. **72**, 491, 1994

Diet history
Estimates of food and macronutrient intake in a random sample of Northern Ireland adolescents. **72**, 343, 1994

Dietary assessment methods
Comparison of dietary assessment methods in nutritional epidemiology: weighed records *v.* 24 h recalls, food-frequency questionnaires and estimated-diet records. **72**, 619, 1994

Dietary fibre
Dietary modifications of the biliary bile acid glycine:taurine ratio and activity of hepatic bile acid-CoA: amino acid *N*-acyltransferase (*EC* 2.3.1) in the rat. **72**, 93, 1994
The effects of pectin and wheat bran on the distribution of a meal in the gastrointestinal tract of the rat. **72**, 289, 1994
Effects of wheat-flour and oat mill fractions on jejunal flow, starch degradation and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 299, 1994
Fibre-mediated physiological effects of raw and processed carrots in humans. **72**, 579, 1994
Effects of reducing the starch content in oat-based diets with cellulose on jejunal flow and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 717, 1994
Effect of dose and modification of viscous properties of oat gum on plasma glucose and insulin following an oral glucose load. **72**, 731, 1994

Dietary protein
Effect of dietary protein source on feed intake, growth, pancreatic enzyme activities and jejunal morphology in newly-weaned piglets. **72**, 353, 1994
Maternal protein reserves and their influence on lactational performance in rats 3. The effects of dietary protein restriction and stage of lactation on milk composition. **72**, 815, 1994

Dietary supplements
Iodine in British foods and diets. **72**, 435, 1994
Effects of different supplements on splanchnic oxygen consumption and net fluxes of nutrients in sheep consuming bromegrass (*Bromus inermis*) hay *ad libitum*. **72**, 701, 1994

Dietary survey
Food photography I: the perception of food portion size from photographs. **72**, 649, 1994

Digestibility
Digestibility of krill (*Euphausia superba* and *Thysanoessa* sp.) in minke whales (*Balaenoptera acutorostrata*) and crabeater seals (*Lobodon carcinophagus*). **72**, 713, 1994
The effect of condensed tannins in *Lotus corniculatus*

on plasma metabolism of methionine, cystine and inorganic sulphate by sheep. **72**, 923, 1994

Doubly-labelled water
Energy metabolism in free-living, 'large-eating' and 'small-eating' women: studies using $^{2}H_{2}{}^{18}O$. **72**, 21, 1994
Measurements of ^{2}H and ^{18}O in body water: analytical considerations and physiological implications. **72**, 3, 1994
The influence of exercise on the energy requirements of adult males in the UK. **72**, 799, 1994
True fractional calcium absorption in Chinese children measured with stable isotopes (^{42}Ca and ^{44}Ca). **72**, 883, 1994

Drug–nutrient interaction
Ferrous sulphate does not directly affect pteroylmonoglutamic acid absorption in rats. **72**, 447, 1994

Eating disorders
Energy metabolism in free-living, 'large-eating' and 'small-eating' women: studies using $^{2}H_{2}{}^{18}O$. **72**, 21, 1994

Editorial
Standards of Peer Reviewing. **72**, 1, 1994
Competition or... **72**, 171, 1994
... Scientific Interchange. **72**, 341, 1994
'Where's the beef?' **72**, 489, 1994
The development of the nutritional sciences. **72**, 647, 1994
Directions from a reader. **72**, 795, 1994

Egg composition
The kinetics of nutrient incorporation into body tissues of gilthead seabream (*Sparus aurata*) females and the subsequent effects on egg composition and egg quality. **72**, 45, 1994

Eicosanoids
Effects of short- and long-term feeding of L-carnitine and congeners on the production of eicosanoids from rat peritoneal leucocytes. **72**, 785, 1994

Energy expenditure
Total energy expenditure and energy intake in the pre-school child: a comparison. **72**, 13, 1994
The influence of exercise on the energy requirements of adult males in the UK. **72**, 799, 1994

Energy intake
Total energy expenditure and energy intake in the pre-school child: a comparison. **72**, 13, 1994

Energy metabolism
Energy metabolism in free-living, 'large-eating' and 'small-eating' women: studies using $^{2}H_{2}{}^{18}O$. **72**, 21, 1994

Epidemiology
Food photography I: the perception of food portion size from photographs. **72**, 649, 1994

Erythrocyte transketolase (*EC* 2.2.1.1)
Thiamin intake, erythrocyte transketolase (*EC* 2.2.1.1) activity and total erythrocyte thiamin in adolescents. **72**, 111, 1994

Essential fatty acids
The kinetics of nutrient incorporation into body tissues of gilthead seabream (*Sparus aurata*) females and the subsequent effects on egg composition and egg quality. **72**, 45, 1994

Ethnic origin
Iron-deficiency anaemia and physical performance in adolescent girls from different ethnic backgrounds. **72**, 427, 1994

Exercise
The influence of exercise on the energy requirements of adult males in the UK. **72**, 799, 1994

Faecal digestibility
The effect of heat on amino acids for growing pigs 1. A comparison of ileal and faecal digestibilities of amino acids in raw and heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 221, 1994

Faeces
Faecal dry weight and potassium are related to faecal sodium and plasma aldosterone in rats chronically fed on varying amounts of sodium or potassium chlorides. **72**, 325, 1994

Fat-free mass
Measuring the body composition of elderly subjects: a comparison of methods. **72**, 33, 1994

Fatty acids
Changes in plasma phospholipid fatty acids and their relationship to disease activity in rheumatoid arthritis patients treated with a vegetarian diet. **72**, 555, 1994

Feed intake
Effect of dietary protein source on feed intake, growth, pancreatic enzyme activities and jejunal morphology in newly-weaned piglets. **72**, 353, 1994
Maternal protein reserves and their influence on lactational performance in rats 3. The effects of dietary protein restriction and stage of lactation on milk composition. **72**, 815, 1994
Maternal protein reserves and their influence on lactational performance in rats 4. Tissue protein synthesis and turnover associated with mobilization of maternal protein. **72**, 831, 1994

Feed restriction
Effect of dietary protein quality, feed restriction and short-term fasting on protein synthesis and turnover in tissues of the growing chicken. **72**, 499, 1994

Feedstuffs
Pteroylglutamic (folic) acid in different feedstuffs: the pteroylglutamate content and an attempt to measure the bioavailability in pigs. **72**, 911, 1994

Fetal myofibre development
Supplementation of a restricted maternal diet with protein or carbohydrate alone prevents a reduction in fetal muscle fibre number in the guinea-pig. **72**, 173, 1994

Field peas
The effect of heat on amino acids for growing pigs 1. A comparison of ileal and faecal digestibilities of amino acids in raw and heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 221, 1994
The effect of heat on amino acids for growing pigs 2. Utilization of ileal-digestible lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 243, 1994
The effect of heat on amino acids for growing pigs 3. The availability of lysine from heat-treated field

peas (*Pisum sativum* cultivar Dundale) determined using the slope–ratio assay. **72**, 257, 1994

Food consumption
Estimates of food and macronutrient intake in a random sample of Northern Ireland adolescents. **72**, 343, 1994

Food intake
Comparison of dietary assessment methods in nutritional epidemiology: weighed records *v.* 24 h recalls, food-frequency questionnaires and estimated-diet records. **72**, 619, 1994

Food photography
Food photography I: the perception of food portion size from photographs. **72**, 649, 1994

Forage
Effects of different supplements on splanchnic oxygen consumption and net fluxes of nutrients in sheep consuming bromegrass (*Bromus inermis*) hay *ad libitum*. **72**, 701, 1994

Fructose
Dietary fructose *v.* glucose in rats raises urinary excretion, true absorption and ileal solubility of magnesium but decreases magnesium retention. **72**, 567, 1994

Galactosamine-induced hepatitis
Effects of mild zinc deficiency, plus or minus an acute-phase response, on galactosamine-induced hepatitis in rats. **72**, 611, 1994

Gastric emptying
Effects of reducing the starch content in oat-based diets with cellulose on jejunal flow and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 717, 1994

Gastrointestinal tract
Assay and digestion of ^{14}C-labelled condensed tannins in the gastrointestinal tract of sheep. **72**, 467, 1994

Gilthead seabream
The kinetics of nutrient incorporation into body tissues of gilthead seabream (*Sparus aurata*) females and the subsequent effects on egg composition and egg quality. **72**, 45, 1994

Glucose
Effects of wheat-flour and oat mill fractions on jejunal flow, starch degradation and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 299, 1994
Dietary fructose *v.* glucose in rats raises urinary excretion, true absorption and ileal solubility of magnesium but decreases magnesium retention. **72**, 567, 1994
Effects of reducing the starch content in oat-based diets with cellulose on jejunal flow and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 717, 1994
Effect of dose and modification of viscous properties of oat gum on plasma glucose and insulin following an oral glucose load. **72**, 731, 1994

Glucosinolates
Degradation of glucosinolates during *in vitro* incubations of rapeseed meal with myrosinase (*EC* 3.2.3.1) and with pepsin (*EC* 3.4.23.1)–hydrochloric acid, and contents of porcine small intestine and caecum. **72**, 455, 1994

Glutamine metabolism
The effect of acidosis on the labelling of urinary ammonia during infusion of [amide-^{15}N]glutamine in human subjects. **72**, 83, 1994

^{15}N-glycine
Casein and soya-bean protein have different effects on whole body protein turnover at the same nitrogen balance. **72**, 69, 1994

Guar gum
The effects of dietary sugar-beet fibre and guar gum on lipid metabolism in Wistar rats. **72**, 385, 1994

Heat treatment
The effect of heat on amino acids for growing pigs 2. Utilization of ileal-digestible lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 243, 1994
The effect of heat on amino acids for growing pigs 3. The availability of lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale) determined using the slope–ratio assay. **72**, 257, 1994

Hypertension
Influence of Korean pine (*Pinus koraiensis*)-seed oil containing *cis*-5,*cis*-9,*cis*-12-octadecatrienoic acid on polyunsaturated fatty acid metabolism, eicosanoid production and blood pressure of rats. **72**, 775, 1994

Ileal digestibility
The effect of dietary crude protein content on apparent and true ileal nitrogen and amino acid digestibilities. **72**, 59, 1994
The effect of heat on amino acids for growing pigs 1. A comparison of ileal and faecal digestibilities of amino acids in raw and heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 221, 1994
The effect of heat on amino acids for growing pigs 2. Utilization of ileal-digestible lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 243, 1994

Immunity
The effects of iron deficiency and iron overload on cell-mediated immunity in the mouse. **72**, 899, 1994

Inorganic sulphate
The effect of condensed tannins in *Lotus corniculatus* on plasma metabolism of methionine, cystine and inorganic sulphate by sheep. **72**, 923, 1994

Insulin
Effect of dose and modification of viscous properties of oat gum on plasma glucose and insulin following an oral glucose load. **72**, 731, 1994

Iodine
Iodine in British foods and diets. **72**, 435, 1994

Iron
Iron-deficiency anaemia and physical performance in adolescent girls from different ethnic backgrounds. **72**, 427, 1994
Ferrous sulphate does not directly affect pteroylmonoglutamic acid absorption in rats. **72**, 447, 1994
The effects of iron deficiency and iron overload on cell-mediated immunity in the mouse. **72**, 899, 1994

Jejunum
Effects of wheat-flour and oat mill fractions on

jejunal flow, starch degradation and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 299, 1994

Krill

Digestibility of krill (*Euphausia superba* and *Thysanoessa* sp.) in minke whales (*Balaenoptera acutorostrata*) and crabeater seals (*Lobodon carcinophagus*). **72**, 713, 1994

Lactation

Maternal protein reserves and their influence on lactational performance in rats 2. Effects of dietary protein restriction during gestation and lactation on tissue protein metabolism and Na^+,K^+-ATPase (*EC* 3.6.1.3) activity. **72**, 181, 1994

Kinetics of blood free and milk casein-amino acid labelling in the dairy goat at two stages of lactation. **72**, 211, 1994

Maternal protein reserves and their influence on lactational performance in rats 3. The effects of dietary protein restriction and stage of lactation on milk composition. **72**, 815, 1994

Maternal protein reserves and their influence on lactational performance in rats 4. Tissue protein synthesis and turnover associated with mobilization of maternal protein. **72**, 831, 1994

Amino acid composition of the milk of some mammalian species changes with stage of lactation. **72**, 845, 1994

Letters to the Editors

Dietary Ca intake and bone density. **72**, 167, 1994

Polyols, breath H_2 and fermentation. **72**, 947, 1994

Breath H_2 after polyol consumption. **72**, 948, 1994

Bioavailability '93 meeting. **72**, 950, 1994

Lipase

Pancreatic digestive hydrolase activities in growing rats fed alternately on raw and heated soya-bean flour. **72**, 533, 1994

Lipid metabolism

Lipid deposition in intestine as a possible cause of malabsorption of nutrients in zinc-deficient common carp (*Cyprinus carpio*). **72**, 753, 1994

Influence of Korean pine (*Pinus koraiensis*)-seed oil containing *cis*-5,*cis*-9,*cis*-12-octadecatrienoic acid on polyunsaturated fatty acid metabolism, eicosanoid production and blood pressure of rats. **72**, 775, 1994

Lipogenesis

The effects of dietary sugar-beet fibre and guar gum on lipid metabolism in Wistar rats. **72**, 385, 1994

Liver

One-month regular oral nutrition in alcoholic cirrhotic patients. Changes of nutritional status, hepatic function and serum lipid pattern. **72**, 937, 1994

Lupins

Absorption of zinc from lupin (*Lupinus angustifolius*)-based foods. **72**, 865, 1994

Lysine

The effect of heat on amino acids for growing pigs 2. Utilization of ileal-digestible lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale). **72**, 243, 1994

The effect of heat on amino acids for growing pigs 3. The availability of lysine from heat-treated field peas (*Pisum sativum* cultivar Dundale) determined using the slope–ratio assay. **72**, 257, 1994

Macronutrients

Estimates of food and macronutrient intake in a random sample of Northern Ireland adolescents. **72**, 343, 1994

Magnesium

Changes in bioavailability and tissue distribution of zinc caused by magnesium deficiency in rats. **72**, 315, 1994

Dietary fructose *v.* glucose in rats raises urinary excretion, true absorption and ileal solubility of magnesium but decreases magnesium retention. **72**, 567, 1994

Malabsorption

Lipid deposition in intestine as a possible cause of malabsorption of nutrients in zinc-deficient common carp (*Cyprinus carpio*). **72**, 753, 1994

Malnutrition

Supplementation of a restricted maternal diet with protein or carbohydrate alone prevents a reduction in fetal muscle fibre number in the guinea-pig. **72**, 173, 1994

Manganese

Digestibility of krill (*Euphausia superba* and *Thysanoessa* sp.) in minke whales (*Balaenoptera acutorostrata*) and crabeater seals (*Lobodon carcinophagus*). **72**, 713, 1994

Meal distribution

The effects of pectin and wheat bran on the distribution of a meal in the gastrointestinal tract of the rat. **72**, 289, 1994

Meat-and-bone meal

The effect of dietary crude protein content on apparent and true ileal nitrogen and amino acid digestibilities. **72**, 59, 1994

Medium-chain fatty acids

Intestinal absorption of medium-chain fatty acids: *in vivo* studies in pigs devoid of exocrine pancreatic secretion. **72**, 545, 1994

Menaquinone

Vitamin K distribution in rat tissues: dietary phylloquinone is a source of tissue menaquinone-4. **72**, 415, 1994

Metallothionein

Effects of mild zinc deficiency, plus or minus an acute-phase response, on galactosamine-induced hepatitis in rats. **72**, 611, 1994

Milk

Kinetics of blood free and milk casein-amino acid labelling in the dairy goat at two stages of lactation. **72**, 211, 1994

Iodine in British foods and diets. **72**, 435, 1994

Maternal protein reserves and their influence on lactational performance in rats 3. The effects of dietary protein restriction and stage of lactation on milk composition. **72**, 815, 1994

Maternal protein reserves and their influence on lactational performance in rats 4. Tissue protein synthesis and turnover associated with mobilization of maternal protein. **72**, 831, 1994

Minke whales

Digestibility of krill (*Euphausia superba* and *Thysanoessa* sp.) in minke whales (*Balaenoptera*

acutorostrata) and crabeater seals (*Lobodon carcinophagus*). **72**, 713, 1994

Models
Simulation of the dynamics of protozoa in the rumen. **72**, 679, 1994

Myrosinase (*EC* 3.2.3.1)
Degradation of glucosinolates during *in vitro* incubations of rapeseed meal with myrosinase (*EC* 3.2.3.1) and with pepsin (*EC* 3.4.23.1)–hydrochloric acid, and contents of porcine small intestine and caecum. **72**, 455, 1994

Na^+,K^+-ATPase (*EC* 3.6.1.3)
Maternal protein reserves and their influence on lactational performance in rats 2. Effects of dietary protein restriction during gestation and lactation on tissue protein metabolism and Na^+,K^+-ATPase (*EC* 3.6.1.3) activity. **72**, 181, 1994

Nematodes
The effect of subclinical intestinal nematode infection on the diet selection of growing sheep. **72**, 665, 1994

Neuromuscular tests
Biochemical indices and neuromuscular function tests in rural Gambian schoolchildren given a riboflavin, or multivitamin plus iron, supplement. **72**, 601, 1994

Nitrogen
Whole-rat protein content estimation: applicability of the N × 6·25 factor. **72**, 199, 1994

Nutrient digestibility
Effect of chitin and chitosan on nutrient digestibility and plasma lipid concentrations in broiler chickens. **72**, 277, 1994

Nutritional epidemiology
Comparison of dietary assessment methods in nutritional epidemiology: weighed records *v.* 24 h recalls, food-frequency questionnaires and estimated-diet records. **72**, 619, 1994

Nutritional status
One-month regular oral nutrition in alcoholic cirrhotic patients. Changes of nutritional status, hepatic function and serum lipid pattern. **72**, 937, 1994

^{18}O measurement
Measurements of ^2H and ^{18}O in body water: analytical considerations and physiological implications. **72**, 3, 1994

Oats
Effect of dose and modification of viscous properties of oat gum on plasma glucose and insulin following an oral glucose load. **72**, 731, 1994

Oral supplementation
One-month regular oral nutrition in alcoholic cirrhotic patients. Changes of nutritional status, hepatic function and serum lipid pattern. **72**, 937, 1994

Overfeeding
Protein synthesis *in vivo* in rats fed on lipid-rich liquid diets. **72**, 509, 1994

Pancreas
Effect of dietary protein source on feed intake, growth, pancreatic enzyme activities and jejunal morphology in newly-weaned piglets. **72**, 353, 1994
Pancreatic digestive hydrolase activities in growing rats fed alternately on raw and heated soya-bean flour. **72**, 533, 1994
Intestinal absorption of medium-chain fatty acids: *in vivo* studies in pigs devoid of exocrine pancreatic secretion. **72**, 545, 1994

Parenteral nutrition
Zinc changes in blood and urine during cyclic parenteral nutrition: relationships with amino acid metabolism. **72**, 763, 1994

Pectin
The effects of pectin and wheat bran on the distribution of a meal in the gastrointestinal tract of the rat. **72**, 289, 1994

Peritoneal macrophages
Effects of short- and long-term feeding of L-carnitine and congeners on the production of eicosanoids from rat peritoneal leucocytes. **72**, 785, 1994

Phospholipase A_2
Pancreatic digestive hydrolase activities in growing rats fed alternately on raw and heated soya-bean flour. **72**, 533, 1994

Phylloquinone
Vitamin K distribution in rat tissues: dietary phylloquinone is a source of tissue menaquinone-4. **72**, 415, 1994

Physical activity
Iron-deficiency anaemia and physical performance in adolescent girls from different ethnic backgrounds. **72**, 427, 1994

Pine-seed oil
Influence of Korean pine (*Pinus koraiensis*)-seed oil containing *cis*-5,*cis*-9,*cis*-12-octadecatrienoic acid on polyunsaturated fatty acid metabolism, eicosanoid production and blood pressure of rats. **72**, 775, 1994

Plasma lipids
Effect of chitin and chitosan on nutrient digestibility and plasma lipid concentrations in broiler chickens. **72**, 277, 1994

Platelets
Influence of Korean pine (*Pinus koraiensis*)-seed oil containing *cis*-5,*cis*-9,*cis*-12-octadecatrienoic acid on polyunsaturated fatty acid metabolism, eicosanoid production and blood pressure of rats. **72**, 775, 1994

Polyunsaturated fatty acids
The vitamin E nutritional status of rats fed on diets high in fish oil, linseed oil or sunflower seed oil. **72**, 127, 1994

Postprandial metabolism
Fasting plasma triacylglycerol concentrations predict adverse changes in lipoprotein metabolism after a normal meal. **72**, 101, 1994

Potassium
Faecal dry weight and potassium are related to faecal sodium and plasma aldosterone in rats chronically fed on varying amounts of sodium or potassium chlorides. **72**, 325, 1994

Protein analysis
Whole-rat protein content estimation: applicability of the N × 6·25 factor. **72**, 199, 1994

Protein digestibility
Gastro-jejunal digestion of soya-bean-milk protein in humans. **72**, 519, 1994
Protein–energy malnutrition
The effects of experimental malnutrition on albumin metabolism and distribution in rabbits. **72**, 369, 1994
Protein intake
The effect of dietary crude protein content on apparent and true ileal nitrogen and amino acid digestibilities. **72**, 59, 1994
Supplementation of a restricted maternal diet with protein or carbohydrate alone prevents a reduction in fetal muscle fibre number in the guinea-pig. **72**, 173, 1994
The effect of subclinical intestinal nematode infection on the diet selection of growing sheep. **72**, 665, 1994
Protein metabolism
Casein and soya-bean protein have different effects on whole body protein turnover at the same nitrogen balance. **72**, 69, 1994
Maternal protein reserves and their influence on lactational performance in rats 2. Effects of dietary protein restriction during gestation and lactation on tissue protein metabolism and Na^+,K^+-ATPase (*EC* 3.6.1.3) activity. **72**, 181, 1994
Effect of dietary protein quality, feed restriction and short-term fasting on protein synthesis and turnover in tissues of the growing chicken. **72**, 499, 1994
Protein synthesis *in vivo* in rats fed on lipid-rich liquid diets. **72**, 509, 1994
Maternal protein reserves and their influence on lactational performance in rats 3. The effects of dietary protein restriction and stage of lactation on milk composition. **72**, 815, 1994
Maternal protein reserves and their influence on lactational performance in rats 4. Tissue protein synthesis and turnover associated with mobilization of maternal protein. **72**, 831, 1994
Amino acid composition of the milk of some mammalian species changes with stage of lactation. **72**, 845, 1994
Identification of sulphur-rich proteins which resist rumen degradation and are hydrolysed rapidly by intestinal proteases. **72**, 855, 1994
Protein quality
Effect of dietary protein quality, feed restriction and short-term fasting on protein synthesis and turnover in tissues of the growing chicken. **72**, 499, 1994
Gastro-jejunal digestion of soya-bean-milk protein in humans. **72**, 519, 1994
Protozoa
Simulation of the dynamics of protozoa in the rumen. **72**, 679, 1994
Pteroylglutamic acid
Pteroylglutamic (folic) acid in different feedstuffs: the pteroylglutamate content and an attempt to measure the bioavailability in pigs. **72**, 911, 1994
Pteroylmonoglutamic acid
Ferrous sulphate does not directly affect pteroylmonoglutamic acid absorption in rats. **72**, 447, 1994
Rapeseed meal
Degradation of glucosinolates during *in vitro* incubations of rapeseed meal with myrosinase (*EC* 3.2.3.1) and with pepsin (*EC* 3.4.23.1)–hydrochloric acid, and contents of porcine small intestine and caecum. **72**, 455, 1994
Retinaldehyde
β-Carotene-15,15′-dioxygenase (*EC* 1.13.11.21) isolation reaction mechanism and an improved assay procedure. **72**, 397, 1994
Rheumatoid arthritis
Changes in plasma phospholipid fatty acids and their relationship to disease activity in rhematoid arthritis patients treated with a vegetarian diet. **72**, 555, 1994
Rumen
Effect of ammonia treatment of wheat straw with or without supplementation of potato protein on intake, digestion and kinetics of comminution, rumen degradation and passage in steers. **72**, 147, 1994
Simulation of the dynamics of protozoa in the rumen. **72**, 679, 1994
Identification of sulphur-rich proteins which resist rumen degradation and are hydrolysed rapidly by intestinal proteases. **72**, 855, 1994
Schoolchildren
Biochemical indices and neuromuscular function tests in rural Gambian schoolchildren given a riboflavin, or multivitamin plus iron, supplement. **72**, 601, 1994
Season
The influence of exercise on the energy requirements of adult males in the UK. **72**, 799, 1994
Selenium
Selenium from beef is highly bioavailable as assessed by liver glutathione peroxidase (*EC* 1.11.1.9) activity and tissue selenium. **72**, 873, 1994
Serum lipids
One-month regular oral nutrition in alcoholic cirrhotic patients. Changes of nutritional status, hepatic function and serum lipid pattern. **72**, 937, 1994
Serum pteroylglutamate
Pteroylglutamic (folic) acid in different feedstuffs: the pteroylglutamate content and an attempt to measure the bioavailability in pigs. **72**, 911, 1994
Socio-economic characteristics
The significance of socio-economic characteristics for adult seasonal body-weight fluctuations: a study in north-western Benin. **72**, 479, 1994
Sodium
Faecal dry weight and potassium are related to faecal sodium and plasma aldosterone in rats chronically fed on varying amounts of sodium or potassium chlorides. **72**, 325, 1994
Soya-bean products
Casein and soya-bean protein have different effects on whole body protein turnover at the same nitrogen balance. **72**, 69, 1994
Gastro-jejunal digestion of soya-bean-milk protein in humans. **72**, 519, 1994

Pancreatic digestive hydrolase activities in growing rats fed alternately on raw and heated soya-bean flour. **72**, 533, 1994

Splanchnic metabolism
Effects of different supplements on splanchnic oxygen consumption and net fluxes of nutrients in sheep consuming bromegrass (*Bromus inermis*) hay *ad libitum*. **72**, 701, 1994

Starch
Effects of wheat-flour and oat mill fractions on jejunal flow, starch degradation and absorption of glucose over an isolated loop of jejunum in pigs. **72**, 299, 1994

Steatitis
The vitamin E nutritional status of rats fed on diets high in fish oil, linseed oil or sunflower seed oil. **72**, 127, 1994

Sugar-beet fibre
The effects of dietary sugar-beet fibre and guar gum on lipid metabolism in Wistar rats. **72**, 385, 1994

Sulphur
Identification of sulphur-rich proteins which resist rumen degradation and are hydrolysed rapidly by intestinal proteases. **72**, 855, 1994
The effect of condensed tannins in *Lotus corniculatus* on plasma metabolism of methionine, cystine and inorganic sulphate by sheep. **72**, 923, 1994

Tannins
Assay and digestion of ^{14}C-labelled condensed tannins in the gastrointestinal tract of sheep. **72**, 467, 1994
The effect of condensed tannins in *Lotus corniculatus* on plasma metabolism of methionine, cystine and inorganic sulphate by sheep. **72**, 923, 1994

The Gambia
Biochemical indices and neuromuscular function tests in rural Gambian schoolchildren given a riboflavin, or multivitamin plus iron, supplement. **72**, 601, 1994

Thiamin
Thiamin intake, erythrocyte transketolase (*EC* 2.2.1.1) activity and total erythrocyte thiamin in adolescents. **72**, 111, 1994

Tissue composition
Protein synthesis *in vivo* in rats fed on lipid-rich liquid diets. **72**, 509, 1994

Total body water
Measurements of ^{2}H and ^{18}O in body water: analytical considerations and physiological implications. **72**, 3, 1994
Deuterium dilution as a method for determining total body water: effect of test protocol and sampling time. **72**, 491, 1994

Triacylglycerols
Fasting plasma triacylglycerol concentrations predict adverse changes in lipoprotein metabolism after a normal meal. **72**, 101, 1994
Intestinal absorption of medium fatty acids: *in vivo* studies in pigs devoid of exocrine pancreatic secretion. **72**, 545, 1994

Trichostrongylus colubriformis
The effect of subclinical intestinal nematode infection on the diet selection of growing sheep. **72**, 665, 1994

True fractional Ca absorption
True fractional calcium absorption in Chinese children measured with stable isotopes (^{42}Ca and ^{44}Ca). **72**, 883, 1994

Underwater weighing
Deuterium dilution as a method for determining total body water: effect of test protocol and sampling time. **72**, 491, 1994

Vegetarian
Changes in plasma phospholipid fatty acids and their relationship to disease activity in rheumatoid arthritis patients treated with a vegetarian diet. **72**, 555, 1994

Very-low-density lipoprotein
Fasting plasma triacylglycerol concentrations predict adverse changes in lipoprotein metabolism after a normal meal. **72**, 101, 1994

Vitamin A
β-Carotene-15,15′-dioxygenase (*EC* 1.13.11.21) isolation reaction mechanism and an improved assay procedure. **72**, 397, 1994

Vitamin D
Ascorbic acid deficiency in guinea pigs: contrasting effects of tissue ascorbic acid depletion and of associated inanition on status indices related to collagen and vitamin D. **72**, 745, 1994

Vitamin E
The vitamin E nutritional status of rats fed on diets high in fish oil, linseed oil or sunflower seed oil. **72**, 127, 1994

Vitamin K
Vitamin K distribution in rat tissues: dietary phylloquinone is a source of tissue menaquinone-4. **72**, 415, 1994

Vitamin supplementation
Biochemical indices and neuromuscular function tests in rural Gambian schoolchildren given a riboflavin, or multivitamin plus iron, supplement. **72**, 601, 1994

Wheat bran
The effects of pectin and wheat bran on the distribution of a meal in the gastrointestinal tract of the rat. **72**, 289, 1994

Wheat straw
Effect of ammonia treatment of wheat straw with or without supplementation of potato protein on intake, digestion and kinetics of comminution, rumen degradation and passage in steers. **72**, 147, 1994

Zinc
Changes in bioavailability and tissue distribution of zinc caused by magnesium deficiency in rats. **72**, 315, 1994
Effects of mild zinc deficiency, plus or minus an acute-phase response, on galactosamine-induced hepatitis in rats. **72**, 611, 1994
Lipid deposition in intestine as a possible cause of malabsorption of nutrients in zinc-deficient common carp (*Cyprinus carpio*). **72**, 753, 1994
Zinc changes in blood and urine during cyclic parenteral nutrition: relationships with amino acid metabolism. **72**, 763, 1994
Absorption of zinc from lupin (*Lupinus angustifolius*)-based foods. **72**, 865, 1994
